What We Have Accomplished

To date we have reached over 350,000 coffee farmer household members.

In 2017 over 60,000 hectares of farmland was impacted by our agronomic training.

17,000 households were reached with our gender trainings. This work has had a positive impact on women empowerment, increasing the involvement in household decision-making and control of income.

We support 84 Farmer Organizations with a network of 1,706 farmer groups.

Almost 2,000 youth have been trained and set up their own farming business. 80% of these young entrepreneurs are now coffee farmers.

Together we are working to build sustainable, more prosperous, healthier coffee growing communities.

Enjoy your sustainable coffee from caring Ugandan coffee farmers.
